## THE SOCIETY FOR THE ADVANCEMENT OF BEHAVIORAL ECONOMICS

---

---

### Statement of Purpose

SABE is an association of scholars who are committed to rigorous economic analysis and are interested in learning how other disciplines – for example, psychology, sociology, anthropology, history, political science, and biology – further our understanding of economic behavior. An important function of SABE is to serve as a forum for research which may not find either comprehension or acceptance in conventional economics societies. SABE also aims at facilitating communication between economists and scholars trained in related disciplines.

**In memory of Gary Charness**  
(1950-2024)

---

Dear SABE community,

It is with great sadness that we announce the passing of Prof. Gary Charness of the University of California, Santa Barbara, Editor of Games and Economic Behavior and former SABE Board member. Gary was a brilliant mind and an outstanding scholar whose contributions to Experimental and Behavioural Economics have left an indelible mark.

Our academic community has lost a great colleague, good friend, inspirational researcher and a remarkable individual whose legacy will continue to guide and inspire us. We are deeply saddened by the passing and we express our condolences to the family, friends, students, colleagues, and others who are personally affected by the loss.

Rest in peace, Gary. You will be profoundly missed.

## SABE Special sessions for the WEAI 99<sup>th</sup> Annual Conference

---

Location: Seattle (US)

Date: **June 29<sup>th</sup> – July 3<sup>rd</sup>, 2024**

Website: <https://weai.org/conferences/view/14/99th-Annual-Conference>

Dear SABE members,

If you are attending the **Western Economic Association International (WEAI) Annual Meeting** in Seattle from June 29<sup>th</sup> to July 3<sup>rd</sup>, 2024, *please join us at the SABE sessions and social hour.*

There are **two SABE sessions** on Sunday, June 30<sup>th</sup>, 2024:

- One at 2:30 pm entitled “*Decoy effects, losses and gains, competitiveness, and subjective well-being*” (session 127), and
- One at 4:30 pm entitled “*Beliefs, biases, and self-promotion in experiments*” (session 149).

In addition, there is a joint **ESA - SABE session on Monday**, July 1<sup>st</sup>, 2024, at 2:30 pm entitled “*AI topics*” (session 178).

Lastly, there will be a joint ESA - SABE social hour on Monday, July 1, 2024, at 6:00 pm at Daniel’s Broiler & Lounge (Located on the second floor of the Hyatt Regency Seattle).

We hope to see you at the sessions and the social hour!

Sincerely,

John Ifcher (SABE liaison for the ASSA, SEA, and WEAI)

## SABE Special sessions for the SEA 94<sup>th</sup> Annual Meeting

---

Location: Washington (US)

Date: **November 23<sup>th</sup> - 25<sup>th</sup>, 2024**

Website: <https://southerneconomic.org/>

In this year, **SABE** intends to organize its traditional **session** at the **Southern Economic Association (SEA) 94<sup>th</sup> Annual Meeting** to be held November 23<sup>th</sup>-25<sup>th</sup>, 2024, in Washington, DC.

This year the topic will be "*When, why, and how to pre-register scientific studies*"; annotation of the session follows.

The idea of the session is to discuss the importance of pre-registering a study before conducting it. Pre-registering involves explaining in detail the research question we have and what others have done before to address that question. Based on previous work, we consider if the question can be approached differently and formulate our own hypothesis. Then, we define the experiment design (or empirical strategy we will follow) to test our hypothesis. But it's not just that; to be completely honest, we also need to register how we will analyze the data we will obtain and how those analyses can either reject or not reject our hypothesis.

Two of the committed contributions are:

**Levent Neyse (WZB Berlin)**: “Lab<sup>2</sup>: incubator for collaborative and transparent economic sciences”

**Diego Jorrat (Loyola)**: "The replication stage after acceptance: the Data Editor view"

There are two more slots for presenters/discussants at the conference. Should you have in mind a contribution to that topic, be it theoretical, methodological, or applied, please contact Pablo Brañas Garza ([branasgarza@gmail.com](mailto:branasgarza@gmail.com)), who is the session convenor, at your earliest convenience.

#### Economics

#### Special issue on

#### *“Replications and Meta-Analyses”*

---

**Submission Closing Date:** No deadline

Website: <https://www.degruyter.com/journal/key/econ/html?lang=en>

*Economics* is inviting authors to submit meta-analyses and replications to our journal.

*Economics* is an open-access and open-assessment journal, founded in 2006, and published by DeGruyter. As an open access, open assessment journal, *Economics* is committed to transparency, reliability, and integrity in academic publishing. Both meta-analyses and replications play important roles in assessing the empirical literature in economics and, thus, are a natural fit for our journal.

As a general interest economics journal, they are open to publishing papers across a broad range of subjects, including behavioural and experimental analyses and statistical and econometric modelling. With respect to replications, they are neutral with respect to the outcome of the replication analysis. Confirming replications are just as likely to be published as replications that refute the original analyses. The only criterion is that the replications be carried out to a high standard of scientific quality.

As this call is revolving, no deadline is specified. They welcome your work when and as it is available. Submissions can be made through our regular submission process on:

<https://www.degruyter.com/journal/key/econ/html?lang=en>

Website:

<https://www.sciencedirect.com/journal/journal-of-economic-behavior-and-organization/about/call-for-papers#mindful-economics-a-special-issue-in-honour-of-colin-camerer>

The Journal of Economic Behavior and Organization has organized *Mindful Economics: A special issue in honour of Colin Camerer*. To honour his contributions, they invite manuscripts in behavioural economics, experimental economics, and neuroeconomics, especially those with a focus on topics that have exemplified Colin Camerer's remarkable contributions to the field. These include *behavioural game theory, organizational economics, choice-process data (eye-tracking, mouselab, affective and arousal responses, etc.), biases and market behaviour, optimal experimental design, replications/meta-analyses, and neuroimaging*.

### **Manuscript submission information:**

- **Submission Open Date:** December 1, 2024
- **Submission Closing Date:** August 1, 2025

Papers must be submitted electronically via the Elsevier Editorial System site for the Journal [here](#). To ensure that all manuscripts are correctly identified for inclusion in the special issue, it is important to select "**VSI: Mindful Economics**" when you reach the "Article Type" step in the submission process.

The goal is to have the **issue published in the Fall of 2026**. If you have any questions about the suitability of a manuscript to this special issue, please feel free to contact one of the special issue co-editors.

## Frontiers in Behavior Economics

Special issue on

*“Image Concerns in Economics Behavior”*

---

**Submission Closing Date:** November 30<sup>th</sup>, 2024

Website: <https://www.frontiersin.org/research-topics/64985/image-concerns-in-economic-behavior>

The Frontiers of Behavioral Economics journal aims to collect papers that study any facet of *image concerns in experimental and behavioral economics*. They welcome empirical, theoretical, experimental, and interdisciplinary studies. The primary aim of this Research Topic is to shed light on the multifaceted nature of image concerns in economic decision-making. We aim to cover a wide range of different questions including, but not limited to:

- when and to what extent do image concerns matter
- heterogeneity in image concerns
- interplay of self- and social image and of different types of image concerns
- interplay of image concerns and other social constructs, such as social norms and social identities
- new ways of measuring image concerns, especially in the field
- welfare consequences of image concerns and implications for policy makers.

We invite contributions that advance the knowledge on image concerns in experimental and behavioral economics. We welcome empirical, theoretical, experimental, and interdisciplinary studies. Manuscripts should aim to provide novel insights and advance our understanding of image concerns in economic decision-making. **Reviews are also welcome.**
